

ANOTHER COUNTY HEARD FROM ON WATER POWER

We published an article a few days since on the question before the City Fathers in contracting with one of two parties for horse power and lights for Dothan and also looking toward a sale of our light plant.

The proposition was referred to a committee who are at present considering the best terms that can be made with these parties.

It seems now that there is a third party wanting to get in the game and who desires along with the two other companies to put in a bid for the privileges.

We copy a letter below which explains it all and which will receive proper consideration from our officers and board of aldermen. The letter is from D. G. Zeigler & Co., consultants, architects and engineers of Jacksonville, Fla.

Hon. Joe Baker, Mayor  
Dothan, Ala.

Dear Sir: I was in your city a few days past and I noted that your city council is contemplating making some changes in your electric light plant and water works toward securing current to be made by water power.

I want to let that I am interested in the development of a water power plant on the Abbe Creek at 1 1/2 miles from Dothan.

My surprise I am quite in all business through to completion yet soon. We have been within our preliminary contract with a view of furnishing Dothan with current for all purposes and I have concluded to write you and ask you to hold the matter off in regard to contracting with any one for current until I can return to meet you and council. I am quite sure that I can place a proposition before you for the furnishing of your city with current that will be very interesting to all parties concerned.

Yours truly,  
D. G. ZEIGLER

This train will run every Saturday on the schedule until the Inter State Chautauque closes April 17th.

TO NIGHT—"UNION DEPOT  
FOR A DAY"

The "Union Depot for a Day" will be presented at the Electric Theatre tonight for the benefit of the Public Library. The cast is a large one and being composed wholly of home talent an enjoyable evening is promised.

The cause is a worthy one and it is expected that very seat will be taken.

DUMPED THE PASSENGERS

A two horse back running to meet the Abbeville train this morning loaded with four passengers large men besides the driver, snapped an axle in crossing the stone walk at Foster and Troy streets throwing its passengers out in a heap in the street. The driver and an overload was the cause of the accident.

MEET TO DISCUSS  
A NEW RAIL LINE

Enfola March 18.—Capt. A. J. Smith, R. C. Williams and R. D. Crawford of Dothan and Claude Gilbert of Slocumb were in the city today on a matter of business in which the citizens of Enfola are deeply interested.

They came here upon the invitation of the Railroad Committee appointed at the recent meeting of the citizens to confer as to the advisability of building an electric road to connect Enfola with Dothan by way of Abbeville.

The meeting was held late this afternoon but with what result is not known.

Captain Smith who is the promoter was given permission by the council some time ago to lay the Chattahoochee river at New Hope and it is his opinion that the stream can be dammed at Black Mound Mill on the east prong of the river and that the power not only sufficient to operate the road but all the machinery in this city can be easily generated at a nominal cost.

Mr. Smith further says that the testimony of an expert on the river can be obtained by a short trip and will afford more power at less expense than anywhere in the south.

It is proposed to discuss the feasibility of this plan of operation at a public hearing to be held at Dothan at 10 o'clock tomorrow night. Mr. Smith said that will not be a traveling bill but Dothan and Enfola and the other cities should take part in other directions should other of the cities desire it.

DIXON'S NEW BOOK

This is the author of a new book just published by Doubleday Page & Co., New York, the title of which is "Conrades."

This book is unlike the last few books published by Dixon, "The Leopard's Spots," "The Clansman," "The Traitor," for it does not deal with the reconstruction period. In writing off this book he is suspicious that Dixon has changed his views toward socialism since he wrote "The One Woman" but as you advance you see that he is weaving a web of violence about socialism that is the undoing of that party's cherished claims. Everyone should read this book before passing judgment on socialism. Every question is thoroughly answered. The case is made out complete.

ELK'S MEETING LAST NIGHT

Nine New Members Initiated and  
Order Now Numbers About  
75 in Membership

The Dothan lodge of Elks held the first regular meeting in the new lodge rooms in the Picher Building last night when nine new members were added making the present membership about 75. Among those initiated last night were several young men from Abbeville.

Though organized but a few months ago the Elks have grown rapidly and the membership is expected to soon reach the hundred mark. The social features of this fraternity are very attractive.

The Dothan lodge has the most convenient and comfortable quarters in the state then lodge rooms in the Picher Building having been built and arranged specially for them.

CLYDE HELMS HURT BY  
TRAIN

Clyde Helms, son of J. E. Helms, who lived in Dothan last year, was run over by the Central train this morning and had an arm cut off and was seriously injured and bruised in the chest. The accident happened at Florala where the family have resided since they left Dothan.

SHARP ACQUITTED

Mistrial For Coopers is Evident

The jury in the Cooper trial came in with a verdict this evening acquitting Sharp but the judge sent the jury back to consider the fate of the Coopers. This probably means a mistrial for them.

Keep to the right and you will travel in a circle

There's always a campaign going on, whether it is an off year or not.

It does seem as if the supply of Spring poems is not so great as it formerly was.

Guano is moving now, but the manufacturers say that the farmer is getting full up value for his guano, prices having been cut so low.

We can already see much improvement going on over and about this town, but it is just a start when compared to that which is yet to follow.

This generation will about do away with the pen and pencil business, and they will only be used in the signing of checks, notes, deeds and mortgages.

Wall Street is pleased with Taft's message, says an exchange. Who wouldn't be, when it was several thousand words short of those formerly written.

Already you see signs of spring, but we here in town, who don't get out to enjoy them, see signs mostly by the baseball fans telling who's with who, this season.

If there is anything in reports and arrangements, and expectation, we are to have the biggest singing in Dothan right away that has occurred since the Surrender

This town is falling into city ways more and more every day. The crowds used to lounge around and walk wabbly and slow, but most of them now have a moving picture gait.

Dothan Commandery meets to night at seven o'clock sharp. Important business of an hour. Plenty of time for the show.

Sir Knights requested to be at the Masonic Hall promptly on the hour.

"Sunny Jim" Sherman must have acquired that nick-name from being so unlike the man he succeeded (whose name was Fairbanks, if you have forgotten). Sherman has a very good grade of safety-razor smile.

You can hear one man say "it looks like it will rain," and an othther remark "it don't look much like rain," until you reach a point where you can't remember really what any one did say about the weather conditions.

It is a good idea to say nothing when you can't say something good, but the idea can be overdone. It has so long been the rule to say something good, when a little honest criticism would better fit the case, that what one says is usually expected to be good and causes a rude shock when it isn't.

From an old ordinance re-published in this issue of the Eagle, it would seem that the city authorities aim to put it into effect. Owners whose property is within three hundred feet of the sanitary sewerage will be expected to put in sewer connections, and if this is done, it will add much to the comfort and general health of the town.

It very often happens that a good newspaper man gets up a good paper, and a good line of advertising, and bully list or subscribers. Then after awhile, you see that paper change hands, and

within a few weeks the appearance is changed, and the change continues till it no longer looks like the same sheet. That is the difference in management. Some men who run papers don't know how, and it requires years and years of experience to acquire the knowledge which enables one to conduct a paper and keep it running on a paying basis.

## DO YOUR OWN THINKING.

Independence of thought is an indispensable prerequisite to mental growth and mental excellency.

It is a misfortune that the intolerance of the world will not permit a free and full expression of opinion. If one's thoughts be out of harmony with the thoughts entertained by the common herd he is either regarded as a freak, totally depraved and is maligned and slandered because the world fails to understand him.

When Columbus expressed a desire to cross the seas for the purpose of discovering the worlds of which he dreamed he was incited with the incursion.

Socrates was put to death because he did not agree with John Calvin about some things.

Bruno suffered at the stake because his ideas of astronomy were in accord with the misinformed account of creation in Gen. 1:1.

Voltaire, Thomas Paine, Jefferson and hundreds of others have been censured, and denounced because the world did not understand them.

If your fellow differs from you—expresses an idea that you can not approve, do not denounce him. But rather try to discover some argument which will put him right.

"Find out the cause of this defect, Or, rather say, the cause of this defect;

For this effect defective, comes by cause."

The author of an idea is a greater benefactor to the race than he who amasses a billion dollars.

Reason is the only torch to guide man through the mambractions of error in this vale of tears.

George Eliot expressed the idea beautifully when she said:

"Two angels guide The path of man, both aged and yet young? An angels are, ripening through the endless years On one he leans; some call him Memory.

And some Tradition, and her voice is sweet,

With deep mysterious accents, the other,

Floating above, hold down a lamp which streams

A light divine and searching on the earth

Compelling eyes and footsteps Memory yields,

Yet clings with loving cheek, and shines anew

Reflecting all the rays of that bright lamp

Our angel reason holds. We had not walked

But for Tradition; we walk evermore

To higher paths, by brightening Reason's lamp"

What an ideal world this would be if all men were guided by that pure, all women inspired with that idea

But too often it is the case as Locke expresses it:

"To be rational is so glorious a thing, that two-legged creatures generally content themselves with the title."

We demand for ourselves liberty of thought and tolerance of judgment. But refuse to concede to others that which arrogate for ourselves

In the realm of thought there should be a perfect democracy.

Shades upon the mind is a form of slavery more to be condemned, more to be feared and dreaded than chains upon the body.

Really, there is no expression when the mind is free to act—when the soul is permitted to follow the inextinguishable light of truth—The Issue.

Table Committee—Geo. Lesh, Chairman; W. S. Braham, J. A. May, I. L. Reeves, I. R. Keaton, O. P. Williams, A. Y. Malone, G. W. Parker, A. C. Crawford, W. T. Singletary, O. P. Green. It will be the duty of this committee to take charge of the finances of this concern and buy everything to eat for the occasion. It will be the duty of this committee to have all meats barbecued, all breads baked, all cakes fresh, and all pickles sour, and to furnish the same on a table at a place and at an hour that will feed the multitudes and they shall command the multitude to sit down on the grass and shall bring and give the leaves to the multitude.

Invitation Committee—W. M. Cooper, Chairman; F. I. Layfield, Secy.; W. F. Hall, Editor. It will be the duty of this committee to have invitations of a unique and pleasing style printed and sent out to all the prominent singers with the range of the knowledge of this committee. The burden of having in attendance the largest number of singers present that has ever assembled in the South and the burden of giving to this occasion the best singers in the land are on this Invitation Committee.

Program Committee—Geo. Malone, Chairman; K. L. Forrester, Secy.; J. L. Crawford, R. C. Williams. This committee is composed of the four National banks of Dothan and they do not know alone how to handle finances and charge interest but they also have a knowledge of the Sacred Harp.

Harp singers where they live and how they sing and they also have capacity to handle a great Convention like the one to be assembled on the 24th day of April in Dothan and they guarantee a program that will not only please but absolutely edify the public. Preparation and Water Committee—M. Cherry, Chairman; T. W. Butler, N. B. Crawford, B. G. Hall. It is the duty of this committee to prepare the courthouses for the reception of the singers of this great convention and to furnish it with every comfort and abundance of water.

Railroad Committee—Joe Baker, Chairman; F. R. Hall, Secy.; I. R. Young, D. C. Carmichael, D. R. Morgan, C. C. Bennett, W. R. Bampton. It will be remembered that the lay members of this committee have always been able to so influence the railroads of Dothan that nothing convenient and profitable has even been denied the citizenship and business of this town. We therefore expect to have a schedule of trains coming into this town that will accommodate the thousands of visitors from the country lying contiguous to this city so that our visitors may come early in the day and return late in the afternoon enjoying the occasion for the entire day.

The Executive Committee will from time to time hear reports and keep in touch with the foregoing sub-committees.

We want your confidence and if we ever betray it tell us about it. If we ever deceive we are ready to make amends.

Our saving department at the close of its first day's business contained 33 new accounts, a record of which we are proud but when we consider that the ages of these deposits ranged from 10 months to 73 years, we are convinced that everyone should encourage the habit of saving 4 per cent in this department.
